Put an IMPACT! automated CD-R duplication solution to work for you today! In automation, capacity is the name of the game and IMPACT! has it. Fill the 6PT series with 800 blank discs and take off. In just 10 hours of unattended operation (CD-ROM, 320MB, 16X) this system can copy and print all 800 pieces.

Asynchronous recording makes your smaller masters fly through the 6 - 16X or 24x recorders. Fast loading IMPACT! robotics are simple, reliable and effective. Keypad interface to the industry's best feature set is clear and easy to manipulate. Store your images on 40GB of hard drive space. Timely firmware upgrades are easy to implement through one of the recorders.

Multi-tasking CD-R duplication processor is an application-specific device designed and built only for CD-R duplication. This powerful engine enables instant boot-up and seamless operation while duplicating and printing to your CD-R's simultaneously. Our full year warranty (including recorders!) and 30 day money back guarantee make owning an IMPACT! system a risk-free venture.

Throughput estimates for IMPACT! Systems. Assuming CD-ROM format, new master, record only. 100 copies.
