

Fusion Powered Professional Duplication Systems

FUSION X

The FUSIONX personal duplication system by Mediatechnics, is a versatile, portable, reliable easy to use duplication system. Allowing for a mobility and unattended capability that cannot be attained with a manual duplication system.

The FUSIONX uses a simply designed robotic mechanism combined with our industry leading DiscWrite II software and allows you to duplicate CD media and in automation simplicity equals reliability..

Simply hook the FUSIONX to your PC via USB connection, install the Mediatechnics DiscWrite II software & start copying CD's.

Using the latest in CD writing technology, the FUSIONX produces the highest quality discs at the fastest speeds in the industry.

Stop copying on antiquated manual tower setups and take your duplication to the next level with the FUSIONX personal duplication system.
