The 8400 offers serious duplication capacity and throughput in one powerful package. Fill the MS-8 series with 8 blank discs and take off. This system will complete all 8 CDs in just 4 minutes (CD-ROM, 320MB, 16X).

Asynchronous recording makes your smaller masters fly through the 8 - 40x recorders. The backlit LCD display and keypad interface attached to the industry's best feature set is clear and easy to manipulate. Store your images on 10GB of hard drive space. Timely firmware upgrades are easy to implement through one of the recorders. The MS-8400 is ready to automate with the addition of a Mediatechnics IMPACT! loader.

Multi-tasking CD-R duplication processor is an application-specific device designed and built only for CD-R duplication. This powerful engine enables instant boot-up and seamless operation, making the duplication process trouble-free and fast. Our full year warranty (including recorders!) and 30 day money back guarantee make owning an MS-8400! system a risk-free venture.

Throughput estimates for IMPACT! Systems. Assuming CD-ROM format, new master, record only. 100 copies.
