The Nexis 100AP CD / DVD Burn and Print Publisher by XLNT Idea, Inc. is a low cost, easy to use solution for low to mid range volume throughput requirements. Designed for a variety of applications, the Nexis 100AP features sleek office aesthetics, small desktop footprint, and very user friendly software.

Non-proprietary consumables used in the system provide a low cost of ownership and can be purchased at virtually any office products store at a dramatically reduced cost. In addition, the unit provides up to 100 disc capacity and supports all standard ink jet printable media types, including Watershield, Waterguard, waterproof and smearproof CD / DVD media.

Powerful graphics software allows any user to create brilliant full color images directly onto the disc creating a truly professional output. Contact a XLNT Idea Representative today for details...!!
